

Automatic Brinell Hardness Tester

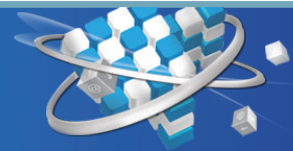

This tester can measure Brinell hardness of car engine, aluminum casting and cast iron, and can be install in production line.

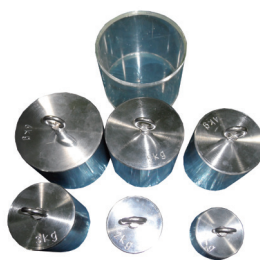

Model	QRBH-103
Max. Load Capacity	3 000 kgf (30 kN)
Test Vertical Height	210 mm
Standard Accessories	Ball (Ø10, Ø5 mm) plate, V type anvil, Microscope
Accessories	QRDT-10A (micro camera, exclusive software)
Power	220 V
Weight (kg)	300

Wire Twist Tester

This tester is used for twist strength test of ultra light alloy wire.

Model	QRTT-101
Max. Torque	50 N/cm
Load Weight	0.5, 1, 2, 3, 4, 5 kg
Test Range	100
Applied Sample	Ø0.3 ~ Ø3
Speed	Controllable
Display	Time, torque, angle of rotation
Dimension (mm)	800 × 500 × 600
Weight (kg)	80
